MANUFACTURER OF **SMALL GREEN ENERGY TURBINES** AND **HYBRID LIGHTING SYSTEMS**

WHAT WE OFFER?

- ✓ INDEPENDENT ENERGY SOLUTIONS
- ✓ NO ENERGY BILLS
- ✓ SAVINGS IN MONEY
- ✓ ECOLOGICAL FRIENDLY ENERGY

We offer VERTI wind turbines in four power options: 1 kW, 3 kW, 5 kW and 7 kW. Each of our turbines reaches the rated power at the wind speed 10 m/s

VERTI

Advantages of our wind turbine VERTI:

- ✓ **no energy bills**
- ✓ independent energy source for your home, business, city, etc.
- ✓ produces energy regardless of the wind direction
- ✓ innovative system of moveable blades of aerodynamic shape
- ✓ maintenance free
- ✓ variety of supporting structures (on flat rooftops, on poles and on masts)
- ✓ dedicated for both city and countryside
- ✓ environmental friendly
- ✓ high efficiency, small size
- ✓ possibility to create hybrid system with photovoltaic panels
- ✓ easy installation
- ✓ two independent braking systems to secure safe operation

Supporting structures

As a complex supplier we also offer different supporting systems made of high quality steel:

- ✓ roof grip, for VERTI 1000 only
- ✓ roof mast, for VERTI 1000 only, 3m 6m 9m high
- ✓ guyed mast 12 m and 18 m high
- ✓ pole 6m, 12 m and 18 m high

HYBRID STREET LAMP

A hybrid street lamp, is the latest product of Airon Green Energy Turbines. This product perfectly fits the architecture of each city and it is using green energy from two sources - the sun and the wind.

Hybrid Street Lamp - advantages

- ✓ **no energy bills**
- ✓ autonomic performance 3-5 days
- ✓ performance right after installation
- ✓ clean energy
- ✓ twilight sensor
- ✓ advertising space (optional)
- ✓ hybrid system – wind turbine and photovoltaic panels give reliable energy source
- ✓ LED lights provide low energy consumption
- ✓ modern lamp design
